

Complex Problem. Simple Solution.

Watts® Pure Water Total PFAS Filtration System

99.5%
TOTAL PFAS
REDUCTION

Per- and polyfluoroalkyl substances (PFAS), also known as “forever chemicals,” are a growing concern with respect to drinking water contamination. Provide your customers with the cleaner, safer water they deserve.

Certified To Reduce
Total PFAS*, Microplastics,
Lead, Cysts, Asbestos, & More

Easy under counter
installation - connects to
any existing faucet

Simple,
no mess filter
replacements

*IAPMO R&T certified to NSF/ANSI 53 for 99.5% Total PFAS reduction

Trust the Tap

PFAS are a group of synthetic chemicals widely used in various products, including non-stick cookware, firefighting foam, clothing, and food packaging materials. Known as “forever chemicals” because they do not easily degrade, PFAS are virtually everywhere in the environment – including in our water. Although PFAS chemicals offer convenience, they may pose serious health risks to humans and animals after extended periods of exposure.

The Watts Pure Water Total Filtration System is IAPMO R&T certified for 99.5% Total PFAS reduction. PFAS are a class of more than 15,000 chemicals, and Total PFAS includes the seven most common: PFOA, PFOS, PFHxS, PFNA, PFHpA, PFBS & PFDA.

Certified Performance

- NSF/ANSI Standard 53 for reduction of Total PFAS, lead, asbestos, and cyst
- NSF/ANSI Standard 401 for the reduction of microplastics
- NSF/ANSI Standard 42 for reduction of chlorine taste and odor, and Class 1 particulate

Product Information

- PWDWTFAS1 Single Stage Total PFAS Filtration System
 - Ordering Code: 7101116
 - System Dimensions: 4.1” W X 16.9” H
- PWCBTFFAS1 Single Stage Total PFAS Filtration Replacement Cartridge
 - Ordering Code: 7101117
 - Change every 3,200 gallons or 6 months
