

Automated Flood Protection Made Simple

Just One Connection Kit for Full Water Shutoff

New & improved **SentryPlus Alert™ Technology** adds automatic full water shutoff to any large diameter RP backflow preventer with an integrated flood sensor and ACV.

Faster Installs

No extra piping, no additional sensors – just one connection kit for automatic shutoff

Easier Retrofit

Connect to any existing large diameter RPZ backflow preventer

Realtime Alerts

Connect to BMS or cellular gateway for instant alerts via text, email, phone when RPZ discharge is detected

Cost-Effective

Achieve complete flood protection with fewer components

CONNECT. CONTROL. CONSERVE.
